COAT OF ARMS

HERALDIC DESCRIPTION

Arms	:	Gyronny of twelve argent and azure, at nombril point, on a bezant, a pall sable.
Crest	:	A fish eagle displayed proper.
Wreath and Mantling	:	Argent and azure.
Motto	:	Diligentia Cresco

SYMBOLISM

The coat of arms, the golden disc, divided into three symbolises the physical, intellectual and spiritual aspects of humankind. The blue and white rays represent the knowledge and learning radiated by the University. The black and red helmet is associated with courtesy while the fish eagle conveys the idea of alertness. The motto, by diligence I grow, serves as an inspiration to both students and staff members.

VISION

A leading comprehensive university providing quality education.

MISSION

To provide globally competitive graduates, relevant for the human capital needs of the country, by providing quality education which upholds high standards of research and academic excellence.

The Richards Bay Campus of the University of Zululand is situated about 172 km north of Durban, off the N2 national road on the KwaZulu-Natal North Coast. This campus is a day campus.

MODULE DESCRIPTIONS

	FIRST YEAR	
	SEMESTER 1	
MODULE CODE	MODULE NAME	MODULE DESCRIPTION
1COM141/ ACOM141	Communication Skills 1	The purpose of this module is to guide the student or learner towards becoming an effective communicator where communication refers to all the four communication skills: speaking, writing, listening and reading.
1COM151/ ACOM151	Digital Communications 1	The purpose of this module is to provide students with an understanding of basic electronic communication methods.
1CCC111/ ACCC111	Corporate Communication 1	The purpose of this module is to set activities involved in managing and co-ordinating all internal and external communications aimed at creating a favourable point-of-view among stakeholders on which the company depends. These are the messages issued by a corporate organization, body or institute to its audience (for example employees, media, channel partners or the general public). Learners will be able to understand an organisation's aim to communicate the same message to all its stakeholders as well as to transmit coherence, credibility and ethics. The module provides the learner with the relevant skills to help

		corporates explain their mission, combine their many visions and values into a cohesive message to stakeholders as well as establish brand communication for market space.
1CCS111/ ACCS111	Communication Studies 1	The purpose of this module is to provide learners with knowledge of various forms of communication theory and research. It examines the principles and contexts of human communication. Some of the principles surveyed are perception, listening, non-verbal communication and persuasion. The primary contexts examined include interpersonal, group, organisational and public communication.
SEMESTER 2		
1COM182/ ACOM182	Communication Skills 2	The purpose of this module is to provide the learner with knowledge of effective communication skills in both written and the oral medium within several different contexts in and out of the organisation.
1CJS112/ ACJS112	Journalism Skills 1	This course has been developed for learners who are interested in pursuing a career in journalism. The qualification is designed to assist students to write news reports following the requirements of specific media news agencies. Journalism Skills I offer the learner an insight into newspaper journalism and the responsibilities of a journalist, a code of journalism standards and ethics of journalism. Learners will understand the various approaches to writing news. Further, learners will be introduced to developing the art of questioning for press conferences and story construction.
1COM132/ ACOM132	Public Relations 1B	The purpose of this module is to provide learners with knowledge of the theory and practice of public relations and to enable them to plan the execution of public relations campaigns.
1COM172/ ACOM172	Marketing and Advertising 1C	Learners will understand the purpose of advertising and marketing within the scope of public relations. They will learn that advertising is the paid, public, non-personal announcement of a persuasive message by an identified sponsor, the non-personal presentation or promotion by a firm of its products to its existing and potential customers. Furthermore, students will learn that marketing is the systematic planning, implementation, and control of a mix of business activities intended to bring together buyers and sellers for the mutually advantageous exchange or transfer of products.

SECOND YEAR		
SEMESTER 1		
ACCS211/ 1CCS211	Communication Studies 2	The purpose of this module is to provide learners with knowledge of various forms of communication theory and research. It examines the principles and contexts of human communication. Some of the principles surveyed are perception, listening, non-verbal communication and persuasion. The primary contexts examined include interpersonal, group, organisation, and public communication.
ACJS211/ 1CJS211	Journalism Skills 2	This course teaches how to write in the basic news style – who, what, when, where, why and how as well as so what? From the fundamental news format, the course moves onto many other types of writing such as features, sports, interviews, investigative reporting, backgrounders, broadcast news, etc. Interviewing and news-gathering techniques are covered, along with ethics and libel. Students learn to write by writing a lot. Final project is a news or feature story suitable for publication.
ACOM241/ 1COM241	Marketing & Advertising 2A	Learners will understand the purpose of Advertising and Marketing within the scope of Public Relations. Learners will learn the different types of advertising. They will be made to understand how an advertising agency works. Learners will also be introduced to the consumer audience and the impact of social and cultural influences on consumers. They will learn the steps in the decision-making process. Further, learners will learn to create print, broadcast and internet advertising campaigns. Media selection procedures and negotiation techniques will be introduced to complete their marketing and the impact of social and cultural influences on consumers. They will learn the steps in the decision-making process. Further, learners will learn to create print, broadcast, and internet advertising campaigns. Media selection procedures and negotiation techniques will be introduced to complete their marketing and advertising conceptualization.

ACOM291/ 1COM291	Communication Research	This module seeks to introduce theoretical guidelines to the practices of researching human and social sciences. Due emphasis is on historical and institutional contexts of research methods and methodologies. In this instance, consideration is focused on synthesising (i) key concepts in social theory, (ii) the actual practice of social & cultural research.
SEMESTER 2		
ACOM222/ 1COM222	Public Relations 2B	This module provides students with the skills to understand media relations, analyse public relations problems, plan, implement and evaluate public relations campaigns and to distinguish between public relations practice in business, government, and non-profit organisations.
ACOM262/ 1COM262	Communication Research Methods A	To provide students with an understanding of the various research methods in communication science. This course examines research methods in mass communication in response to the need for communication initiatives. The role of Communication Research Methods is to ask and answer questions about the use of media technologies, consumption of media contents, and the media audience, to advance an organisation's effectiveness. Learners will therefore engage in the evolving sphere of communication such as the World Wide Web, Corporate communication, e-commerce and online surveys that Web 2.0 provides.
ACOM142/ 1COM142	Law for Public Relations	The purpose of this module is to provide learners with an understanding of nature, techniques and skills associated with the role of rhetoric and persuasion in politics, the effects of political communication, and the media and channels of political communication.
APHS112/ 1PHS112	Public Relations Ethics	This module is intended for students studying towards a diploma in Public Relations who will be confronted with issues of public relations ethics at their future workplaces. The module deals with ethical issues in the context of various situations arising in public relations. It applies selected ethical theories to the process of decision-making by public relations officials.

THIRD YEAR		
SEMESTER 1		
ACOM331/ 1COM331	Public Relations 3A	This module provides students with the skills to understand and analyse management techniques in Public Relations.
ACCS311/ 1CCS311	Communication Studies 3	This module aims to provide learners with knowledge of the role of communication in a global context, a survey of cultural imperialism and international relations, and to enable them to research the international flow of news and entertainment, and the New World Communication and Information Order and international communication policy.
ACOM221/ 1COM221	Media Studies 1B	The purpose of this module is to provide learners with knowledge of media institutions, functionalist and critical media theories as well as media issues. It also aims to enable them to <u>research</u> topics such as media institutional practices, ownership, regulation, censorship, media and democratization as well as the power and functions of the media.
AHIV111/ 1HIV111	HIV & AIDS Literacy	This module seeks to empower students to make a difference in dealing with HIV and AIDS crises; to provide students with information on HIV and AIDS prevention and management as well as to expose students to various areas on which HIV and AIDS impacts.
SEMESTER 2		
ACOM332/ 1COM332	Experiential Learning 1A	This module provides students with real-world work experience. It will provide students with skills to plan, analyse public relations problems, implement and evaluate public relations campaigns, and to distinguish between public relations practice in business, government and non-profit organisations.

1CMDP1/ACMDP1

Diploma in Media Studies

The purpose of this qualification is to provide competent and responsible media specialists with market related media skills which are also relevant to the private and public sectors of the economy. This course is suitable for students' seeking employment in the following areas: camera operating, photojournalism, video & photo editing, advertising, communication, spokespersons, personal assistance, and journalism.

MODULE DESCRIPTIONS

FIRST YEAR		
SEMESTER 1		
MODULE CODE	MODULE NAME	MODULE DESCRIPTION
1COM141/ ACOM141	Communication Skills 1	The purpose of this module is to guide the student or learner towards becoming an effective communicator where communication refers to all four communication skills: speaking, writing, listening, and reading.
1COM151/ ACOM151	Digital Communication 1	The purpose of this module provides students with an understanding of basic electronic communication methods.
1HIV111/ AHIV11	HIV & AIDS Literacy 1	This module seeks to empower students to make a difference in dealing with HIV and AIDS crises. It aims to provide students with information on HIV and AIDS prevention and management. To expose students to various areas on which HIV and AIDS impacts
1CCS111/ ACCS111	Communication Studies 1	The purpose of this module is to provide learners with knowledge of various forms of communication theory and research. It examines the principles and contexts of human communication. Some of the principles surveyed are perception, listening, non-verbal communication and persuasion. The primary contexts examined include

		interpersonal, group, organisational and public communication.
SEMESTER 2		
1CMS112/ ACMS112	Media Skills 1	The purpose of this module is to provide learners with knowledge of media institutions, functionalist, and critical media theories as well as media issues. It also aims to enable them to research topics such as media institutional practices, ownership, regulation, censorship, media and democratization as well as the power and functions of the media.
1CPR112/ ACPR112	Public Relations Skills 1	The purpose of this module is to provide learners with knowledge of the theory and practice of public relations and to enable them to plan the execution of public relations events, campaigns and programmes for media.
1CAS112/ ACAS112	Advertising Skills 1	Learners will understand the purpose of advertising within the scope of media studies. They will learn that advertising is the paid, public, non-personal announcement of a persuasive message by an identified sponsor; the non-personal presentation or promotion by a firm of its products to its existing and potential customers.
1CJS112/ ACJS112	Journalism Skills 1	This course has been developed for learners who are interested in pursuing a career in journalism. The qualification is designed to assist students to write news reports following the requirements of specific media news agencies. Journalism Skills I offer the learner an insight into newspaper journalism and the responsibilities of a journalist, and a code of journalism standards and ethics of journalism. Learners will understand the various approaches to writing news. Further, learners will be introduced to developing the art of questioning for press conferences and story construction.
SECOND YEAR		
SEMESTER 1		
ACJS211/ 1CJS211	Journalism Skills 2	This course teaches how to write in the basic news style - who, what, when, where, why and how as well as so what? From the fundamental news format, the course moves onto many other types of writing such as features, sports, interviews, investigative reporting, backgrounders and broadcast news, etc. Interviewing and news-gathering techniques are covered, along with ethics and libel. Students learn to write by writing a lot. Final project is a news or feature story suitable for publication.
	Communication Studies 2	The purpose of this module is to provide learners with knowledge of various forms of communication theory and research. It examines the principles and contexts of human

ACCS211/ 1CCS211		communication. Some of the principles surveyed are perception, listening, non-verbal communication and persuasion. The primary contexts examined include interpersonal, group, organisational, and public communication.
ACMS211/ 1CMS211	Media Skills 2	The purpose of this module is to provide learners with knowledge of the theories and skills to analyse media texts, genres, and audiences as well as the effects of the media. Through the module, learners are intended to plan the use of media for educational purposes.
APHS211/ 1PHS211	Philosophy of Communication	The purpose of this module is to introduce Communication Science students to the philosophical theories of hermeneutics and deconstructivism. Both these theories on language show how open-ended language can be and students can gain by being made aware of this. Basic logic and logical fallacies will also be taught to provide students with more solid foundational communication skills.
SEMESTER 2		
ACPR212/ 1CPR212	Public Relations Skills 2	This module provides students with the skills to understand media relations, analyse public relations problems, plan, implement and evaluate public relations campaigns and to distinguish between public relations practice in business, government and community-based organisations
ACOM252/ 1COM252	Digital Communication 2	The purpose of this module provides students with an understanding of basic electronic communication methods.
ACAS212/ 1CAS212	Advertising Skills 2	Learners will understand the purpose of and different types of advertising within the scope of media studies. They will gain insight into how an advertising agency works. Learners will also be introduced to the consumer audience and the impact of social and cultural influences on consumers. They will learn the steps in the decision-making process. Furthermore, learners will learn to create print, broadcast and internet advertising. Media selection procedures and negotiation techniques will be introduced to complete the marketing and advertising concept.
APHS212/ 1PHS212	Media Ethics	The purpose of this module is to introduce students to ethical theories within media; ethical issues related to media studies and communication; and critical thinking. Students will learn to identify ethical issues within a communication context and critically apply ethical theories to those issues. This module will equip students with skills both for making ethical decisions within the media and communication fields as well as for effectively communicating the impact of certain decisions.

THIRD YEAR		
SEMESTER 1		
ACOM341/ 1COM341	Business Studies 1B	This module provides students with the skills to manage or start up a small business. It is intended to provide students with an understanding of the relationship between business and the public.
ACMS311/ 1CMS311	Media Skills 3	The purpose of this module is to provide learners with knowledge of the theories of, and skills to analyse media texts, film theory and criticism, an adaptation of reception theory to analyse media audiences and the knowledge of media production.
ACOM351/ 1COM351	Communication Research Methods C	This module seeks to introduce theoretical guidelines to practices of researching the human and social sciences. Due emphasis is on historical and institutional contexts of research methods and methodologies. In this instance, consideration is focused on synthesising (i) key concepts in social theory, (ii) actual practice of social & cultural research.
ACJS311/ 1CJS311	Journalism Skills 3	This module seeks to provide learners with the theoretical foundation of public speaking. It aims to enable learners to carry out an audience analysis, teaching them how to adapt the information to the audience. The module will enable learners to write and present news as well as programmes for radio, television, and the Internet. To inform the learner about broadcast regulations and restrictions.
SEMESTER 2		
ACEL312/ 1CEL312	Experiential Learning 1A	This module provides students with real-world work experience. It will provide students with the skills to plan and analyse mass communication problems. It will equip them to implement and evaluate broadcasting and mass-communication campaigns and to distinguish between corporate and community mass-communication strategies.

IDPTM1 Diploma in Tourism Management

The purpose of the programme is to provide graduates with vocational knowledge and skills required in the tourism industry. Graduates of this programme will be equipped to enter both the public and private tourism sectors as entry level employees, and will be able to utilize and apply operational skills and problem-solving techniques within tourism businesses or public tourism institutions. The essence of this programme is to provide graduates with hands-on skills (different from bachelor's degree provision) that will enable them to be employed as quickly as possible after graduation. Students, in their third year, will take Tourism Employability Skills module, and will undergo six-month Work Integrated Learning within the tourism industry to prepare them for a career in the industry.

MODULE DESCRIPTIONS

FIRST YEAR		
Semester 1		
MODULE CODE	MODULE NAME	MODULE DESCRIPTION
1TEM111	Tourism Events Management A	On successful completion of this module, students are expected to demonstrate their understanding of events management concepts. Students will be able to identify different types of events and discuss stakeholders involved as well as understanding the different staging elements.
1TPR111	Travel Practice 1A	This module is destination specific, and on successful completion of this module, students should possess the knowledge and understanding of the application of Tourism Geography from the supply and demand perspectives. They should have knowledge of tourist destinations in Africa and Asia.
1TTD111	Travel & Tourism Development 1A	On successful completion of the module, students understand the tourism industry as an interrelated system, in relation to key sectors and role players in tourism.
1TTM111	Travel & Tourism Management 1A	The purpose of this module is to introduce tourism students to the main principles of business management in a tourism context. They will understand the concepts of planning, organizing, leading, and controlling a tourism enterprise, within a local and global environment.
Elective		
4HMI111	Hospitality Information Systems 1	This module seeks to equip students with skills in computer literacy which include Windows operating system, browser and Word processor applications. This module will also enable the student to apply their knowledge and experience when they get employed in the hospitality industry.

Semester 2		
1TEM112	Tourism Events Management B	On successful completion of this module, students should understand and demonstrate skills in important tourism events' management planning and management functions, such as bidding process, events' marketing, securing sponsorship, risk management, communication, and catering management.
1TPR112	Travel Practice 1B	This module is destination specific, and on successful completion of this module, students should possess the knowledge and understanding of the application of Tourism Geography from the supply and demand perspectives. They should have knowledge of tourist destinations in Europe, Americas (North, Central and South) and Oceania.
1TTD112	Travel & Tourism Development 1B	The purpose of this module is to provide students with the knowledge and understanding of the tourism industry and the different types of tourism impacts. Students will be able to identify the social, economic and environmental impacts of the development of different types of tourism attractions.
1TTM112	Travel & Tourism Management 1B	The purpose of the module is to introduce tourism students to the field of General Management, and develop students who can demonstrate a focused knowledge on the issues of the manager and the development of management theory as well as the functional areas of a business, namely operations management, human resource management, marketing management, financial management, and purchasing and supply management.
Elective		
4HMI112	Hospitality Information Systems 2	The aim of the module is to equip students with basic computer literacy skills in presentation and spreadsheet applications.
SECOND YEAR		
Semester 1		
1TEM211	Travel & Tourism Marketing A	The objective of this module is to introduce tourism students to the basic principles of marketing, mainly in a consumer product context. On a practical level, the student will have attained the necessary experience to identify environmental trends, understand basic consumer behaviour and market segmentation.

1TPR211	Travel Practice 2A	The module's purpose is to offer students with the knowledge of the composition and the function of the travel industry, including themes such as world tourism geography, surface, water and air transport, accommodation, travel document requirements for international travel, travel insurance, foreign exchange and compiling travel itineraries for international travels.
1TTD211	Travel & Tourism Development 2A	On successful completion of this module, students will have acquired the necessary knowledge about the effective use of various levels and models of tourism planning in South Africa based on the tourism policies, principles of sustainability and ethical use of community tourism resources.
1TTM211	Travel & Tourism Management 2A	On successful completion of this module students will be capable of applying financial analysis tools necessary to monitor the general financial position of a tourism business and to limit the risk of financial failure of the business as far as possible. Students will be able to apply basic accounting principles for effective financial decision-making in the tourism business. Students will receive guidance on how to manage the tourism business in a sustainable financial way by the integration of foundational, practical and reflective competence.
Elective		
1COM141	Communication Skills 1	The purpose of this module is to guide the student or learner towards becoming an effective communicator where communication refers to all of the four communication skills: speaking, writing, listening and reading.
Semester 2		
1TEM212	Travel & Tourism Marketing B	The objective of this module is to introduce tourism students to tourism offerings, mainly in a consumer product context. On a practical level, the student will be familiar with the product, pricing, distribution and promotion elements of the marketing mix
1TPR212	Travel Practice 2B	Upon successful completion of this module, students will be able to calculate appropriate international fares with 100% accuracy, based upon principles found in the IATA Passenger Tariff Conferences' Multilateral Interline System. This is achieved by making use of the Passenger Air Tariff publication. The module is based on the standards set by IATA airlines and approved by their

		respective governments, reducing errors in interpreting conditions that apply to international fare calculation.
1TTD212	Travel & Tourism Development 2B	The purpose of this module is to equip students studying Tourism Management for their responsibility with respect to aspects of tourism destination evolutionary models and tourism development in context. Sustainable and responsible tourism and the ongoing debates should form the core of this module.
1TTM212	Travel & Tourism Management 2B	The objective of this module is to introduce the students to the distinctive process of entrepreneurship. The module presents both theory and practice, which will clarify underpinning theoretical concepts with practical application.
Elective		
1COM182	Communication Skills 2	The purpose of this module is to provide the learner with knowledge of effective communication skills in both written and the oral mediums, within a number of different contexts, in and out of the organisation.
THIRD YEAR		
Semester 1		
1TES311	Tourism Employability Skills	The purpose of this module is make students aware of the employability skills and encourage them to integrate these skills in their personal and professional development, and kick-start their career in tourism.
1TIF311	Travel & Tourism Information Systems	The purpose of this module is to provide students with the skills of using information technology in tourism distribution channels. Students will be equipped with basic understanding of essential reservation software used in different tourism organisations.
1TPR311	Travel Practice 3	The purpose of this module is to provide students with the skills of running a travel agency and a tour operation.

1TTD311	Travel & Tourism Development 3	The purpose of this module is to give the students a comprehensive understanding of the economics of tourism. The module must help student understand the supply and demand determinants of tourism, the measurement of the tourism industry, the role of the government in growing the tourism economy, the micro and macro evolution of tourism investment decisions, the international economic dimensions of tourism and the environmental economics of tourism development.
1TTM311	Travel & Tourism Management 3	The purpose of this module is to provide students with an in-depth knowledge of destination competitiveness. The module will link destination competition with sustainability, exploring ways how destination policy, planning and development can bring about a sustainable and competitive destination.
Semester 2		
1TWL312	Tourism Work Integrated Learning	The purpose of this module is to expose students to industry / practical experience that allows them to apply theories learnt in class to practice in the tourism industry. Students will have a particular challenge of facing some industry practices that are different from classroom knowledge. Students have to find a suitable tourism organization where they will spend not less than six months in, to gain practical experience. Students are expected to be evaluated by the site mentor, submit an abstract and give a presentation on their work integrated learning experiences to the University.

MODULE DESCRIPTIONS

CODE	MODULE NAME	MODULE DESCRIPTION
2CAC101	Financial Accounting 1A	At the end of the course, students should have developed the necessary skills to understand the business cycle and various decisions taken in a business; record and interpret financial transactions; prepare financial statements as well as relate underlying accounting assumptions and concepts to current practice. Students are expected to develop the ability to record all routine transactions including the Cash book in accordance with the VAT Act requirements.
2CAC102	Financial Accounting 1B	This module discusses the basic disclosure of assets; liabilities and the various forms of equity in sole traders, partnerships, and companies. Inventory and the recording thereof is also discussed. Cash and credit transactions are discussed and the reconciliation of bank, debtors and creditors are discussed in detail. Property, plant and equipment also form part of this curriculum. This module concludes with the discussion of partnerships.
2AMA101	Management Accounting 1	This module discusses the principles of cost classification and terminology; stock holding terms, concepts and administration of stock; remuneration systems; overhead costs and allocation rates; cost flow and manufacturing costs as well as cost-volume profit analysis is the final topic of this module.
2AMS101	Management Information Systems 1A	This course introduces students to the techniques and tools of management information systems. Coverage is given to the Information System as it relates to the system's concept and its role in an organisation, IT infrastructure with the focus on hardware and

		software, as well as database technologies. Students will learn social and global subjects such as ethical, legal and security issues relative to Management Information Systems. Computer literacy will be focused on Microsoft Word documents, Power Point presentations, data management using databases as well as Microsoft visio and project management
2AMS102	Management Information Systems 1B	This course is a continuation of MIS 1.1, now focusing on data communication; the Internet; E-Commerce; Global Information Systems; IS Development; Enterprise systems; Management Support Systems and a peak into the future looking at emerging trends and technologies. The technical component will be on spreadsheets and web page development.
2ABU101	Business Calculations	This module deals with arithmetic; decimals; percentages; ratios; algebra; indices; algebraic expressions; factorisation; transposing formula; solving equations; straight line and exponential graphs.
2ALP102	Legal Principles and Practices for Accountants 1	Students will be introduced to the normative systems and sources of law. The rules relating to the Interpretation of Statutes, requirements of a valid contract, contracts of sale and purchase as well as the law of Agency will also be introduced to the students.
2ABL102	Business Literacy	This course covers various topics which include the theory of communication; channels of communication; adaptation and the selection of words; construction of clear sentences and paragraphs; writing for effect as well as the introduction to messages and the writing process. It also focusses on informal oral communication, public speaking and oral reporting; the introduction to communication in the workplace; techniques of cross-cultural communication; correctness of communication; technology-enabled communication and business research methods.

2AACR1/CAACR1

Advanced Certificate in Accountancy

This is a 1-year qualification consisting of 9 modules. The total credit value for this qualification is 120. This qualification is aimed at producing people capable of performing activities in the following areas: Accounting assistants and junior bookkeepers and accounting technicians.

Learners aspiring to enter this qualification must be in possession of a Higher Certificate in Accountancy (NQF entry level 5).

MODULE DESCRIPTIONS

CODE	MODULE NAME	MODULE DESCRIPTION
2CAC201	Financial Accounting 2A	This module serves to introduce students to companies, including Close corporations. Using this information as a foundation, students will learn how the financial statements and reports relevant to a company are produced.
2CAC202	Financial Accounting 2B	This module introduces students to the various kinds of statements that are applicable to company accounts. The treatment of the various statements, recognition thereof and incorporation into the set of financial statements of a company will also be addressed, and students are taught how to apply these differences.
2AAU111	Auditing 1.1	The purpose of the module is to introduce students to the relevant business principles for Accounting, including internal control and professional ethics as well as the regulations set out in the <i>Companies Act 2008</i> and by the <i>King III Report</i> on corporate governance. An understanding of the role of the auditor, the audit process and the key elements that affect an audit are then built upon this course.
2AAU112	Auditing 1.2	The purpose of the module is to impart an understanding of the key business cycles which exist in most organizations, the risks faced in each cycle and the internal controls recommended to address these risks. The student is then equipped to understand the audit procedures used to gather evidence to support the assertions contained in balances and classes of transactions relevant to each cycle.
2AMA201	Management Accounting 2A	The purpose of this module is to introduce and familiarise students with management and cost concepts at a more advanced level. Students will develop familiarity with and be able to use the following management concepts: costing systems (job costing and contract costing), process costing (single product and by-product), and other costing systems (standard costing, ABC, and direct and absorption costing)
2AMA202	Management Accounting 2B	The module introduces and familiarise students with management and cost concepts at a more advanced level. Students will learn how to work with and produce: budgets and perform the relevant associated costing tasks.

2ATA201	Taxation	The purpose of this module is to familiarize students with income tax legislation in order to equip them with the knowledge and ability needed to calculate the net normal tax liability of a natural person for a given year of assessment.
2APA112	Introduction to Pastel 1	The aim of this module is to equip students with the knowledge and skills needed to use and implement Sage Pastel Partner V14 as an example of an integrated accounting system widely used in South African business organisations.
2ACP112	Commerce in Practice	This module provides students with the opportunity to apply their theoretical subject knowledge (or components thereof) to real life situations in the contact of practical learning. This subject is aligned with a practical (or practice-based) component through teaching and learning activities that bring the theory and practice together in ways meaningful to students.

2COPD1/CCOPD1 Diploma in Management of Co-Operatives

This programme is one of the first accredited academic diplomas in this field. It aims to equip students with skills and knowledge that will qualify them for employment as managers and supervisors of small and medium co-operatives. Graduates will be able to manage the operations of co-operative organisations, mobilise resources from members of co-operatives for growth and wealth generation. Graduates will also acquire broad-based business management skills. Employment opportunities can be in any of the following positions: co-operative manager, co-operative training and educational specialist, co-operative promoters/advisor, co-operative auditor, credit officer for micro-financing or project development officer with a non-governmental organisation (NGO).

CCDA211/ 2CDA211	Accounting 1B	This module covers the introduction to VAT and how to prepare a cash book in accordance with VAT act requirements; introduction to employees tax and the computation of salaries and wages amounts as well as post-closing journal entries and the AFS.
CCDW212/ 2CDW212	Work Integrated Learning	During this period, students have to visit and interact / work with co-operatives for three months
CCDF311/ 2CDF311	Financial Accounting	In this module, students learn about processing accounting information through the accounting system to an elementary balance sheet and income statement; basic disclosure of assets, liabilities as well as the various forms of equity in sole traders, partnerships and companies; manufacturing Income Statements and the determination of inventory values using arithmetic conventions. Students also learn about capital budgeting and cash flows; the investment process; working capital and financing decisions.
CCDN311/ 2CDN311	Co-Operative Banking	The main focus of the module is the registration, constitution, functions and powers of co-operative banks and the regulatory authorities; banking services provided by co-operative banks as well as their management.
		This module deals with ownership, management and organisation; human resources; labour management

CCDB311/ 2CDB311	Business Management 2	relations; the marketing process; finance and risk management; information and management decision making as well as government and world business.
CCDL311/ 2CDL311	Commercial Law for Co-Ops	This module deals with contracts; sales; leases; suretyship; agency; aspects of employment and credit agreements. Various aspects of commercial law will be included, with particular emphasis on topics that have direct relevance to the establishment and continued existence of co-operatives.
CCDO312/ 2CDO312	Co-Op Organisation and Management	This module seeks to help students understand strategic and policy issues relating to an organisation; the functioning and role of co-operatives and their stakeholders; governance; leadership; business development; the role of government and development agencies in the development of co-operatives.
CCDP312/ 2CDP312	Auditing and Professional Ethics	This module will introduce students to the auditing code of professional conduct, statutory requirements and the audit process. Audit risks and evidence concepts will also be discussed.
CCDR312/ 2CDR312	Co-Operative Marketing	In this module, students will learn about defining marketing and the marketing process; understanding the marketplace and consumers; the marketing environment as well as marketing information systems. They will also learn about market segmentation, targeting and positioning; the marketing strategy and planning as well as the breakdown of the marketing elements: product strategy, pricing decisions, overview of marketing communications and distribution.
CCDE312/ 2CDE312	Co-Operative Education and Training	This module deals with principles and methods of co-operative education and training for members, directors, employees, interest groups and general public. Other topics include techniques of organising and conducting meetings, seminars and workshops; methods for handling adult learners as well as developing training content from needs assessments.

TRANSPORT & LOGISTICS

2BLM01/CBLM01 Diploma in Logistics Management

This qualification is aimed at producing entry-level employees who intend to pursue careers in the field of transport and supply chain management. Successful students will be qualified to work in the transportation and logistics fields, specializing in logistics services; warehousing and distribution; supply chain management; clearing and forwarding; export and import trade; inventory control as well as procurement and manufacturing.

2BLM01/CBLM01 Diploma in Logistics Management

MODULE DESCRIPTIONS

DIPLOMA IN LOGISTICS MANAGEMENT		
SEMESTER 1		
MODULE CODE	MODULE NAME	MODULE DESCRIPTION
2BTL101/ CBTL101	Mathematics for Transport and Logistics	The purpose of this module is to enable students to get foundation in numeracy and get prepared for the core modules in year two and three. Topics covered include: basic mathematics; percentages; ratios and proportions; algebra; simple interest; compound interest; algebra linear programming; introduction to statistics; elementary probability; probability events; Venn diagrams and probability tree diagrams.
2BTL111/ CBTL111	Economics for Transport and Logistics	Upon completing this module, students should be able to explain what economics is; distinguish between microeconomics and macroeconomics; understand the principles of economics; describe the three central economic questions and describe the major differences in various economic systems. Students should also be able to show how demand and supply can be expressed in words, numbers, graphs and equations; explain how the equilibrium price and quantity are determined; explain how government intervention affects markets; explain the determinants of various elasticity of both demand and supply; define the various revenue, cost and profit concepts; and the theoretical differences between the four market structures and the interpretation of graphs thereof.

2BTL121/ CBTL121	End User Computing	After completing this module student should be able to use Microsoft Word to complete assignments given in other modules; use Microsoft PowerPoint to make presentations in class and perform basic calculations (addition, subtractions, divisions) on a spreadsheet. They should also be able to use the formula functions in Microsoft Excel to insert different formulae; perform calculations involving absolute functions on Microsoft Spread Sheet; analyse data on a spread sheet as well as sort data and format a spread sheet.
2BTL131/ CBTL131	Business Language 1	After completing this module, students should be able to deliver a professional oral and written presentation report, memo and minutes; participate meaningfully in interactions with others in such a way that the sender of the message feels valued and supported; show through responses and use of written texts that understanding, interpretation and evaluation have taken place; write letters, e-mails, memorandums, faxes, notices, short advertisements and brochures that meet the needs of the intended audience and achieve the desired goals as well as prepare and deliver a speech on a given topical issue.
SEMESTER 2		
2ATL132/ CATL132	Business Language 2	After completing this module, students should be able to apply the concepts of persuasive communication within a number of different social contexts; develop business communication skills; avoid common mistakes made in a formal conversation and listen to his/her audience in order to provide a suitable response. Students should be able to understand audience in different contexts; carry out an audience analysis; develop the skill of delivering both good and bad news as well as carry out an effective presentation making use of both written and oral communication skills.
2BTL112/ CBTL112	Practical Accounting	After completing the module, students should be able to prepare books of prime entry; post journals; prepare and balance a general ledger; analysing effects of transactions on the accounting equation as well as prepare and adjust the trial balance. They should also be able to prepare the income statement with basic adjustments; prepare the balance sheet using the format of accounting equation; preparing statement of cash flows; calculation of input and output VAT as well as knowledge of principles of internal controls.

2BTL122/ CBTL122	Business Management	Upon completing this course, students should be able to apply sound management principles and theories in a real business situation; translate ideas into business opportunities; draw business plans and establish a business enterprise; analyse contemporary management issues which offer competitive advantage as well as analyse micro and macro business environment. They should also analyse the basic role of management in business organisations; analyse classical and contemporary approaches to business; gather and analyse financial information and take decisions on long term investment and capital budgeting as well as analyse case studies on financial decisions and select the optimal capital structure.
2BTL132/ CBTL132	Marketing	After completing the module, students should be able to analyse and apply the following to business situations: strategic marketing; market environmental factors; marketing research; marketing information systems; market segmentation; products; new product development and innovation; price and pricing strategy; product promotion; marketing distribution channels; competitors and competitive advantage; market targeting, positioning and brand strategy; management control; financial control as well as performance appraisal and benchmarking.

SECOND YEAR

SEMESTER 1		
CBLM201/ 2BLM201	Purchasing Management	After completing the module, students should be able to analyse and apply the following: the purchasing function in perspective; the task of purchasing and supply management; the purchasing process and procedure; purchasing and supply policies and strategies as well as assessment of selection of supplier and the management of quality in purchasing and supply. They should be able to analyse and apply purchasing price determination and cost analysis; quality and inventory management; material flow activities; negotiation in purchasing and supply management; electronic commerce and electronic procurement applications in supply management; make or buy decisions; in sourcing as well as outsourcing strategies.
CBLM211/ 2BLM211	Financial Management	After completing the module, the student should be able to analyse and apply the role and environment of managerial finance; financial statements and cash flow; financial planning; time value of money; risk and return on income; capital budgeting cash flows; the cost of capital; working capital and current assets as well as international managerial finance.

CBTL201/ 2BTL201	Logistics 2A	After completing the module, the student should be able to analyse and apply business logistics management; competitive advantage created by logistics; logistics and supply chain strategy planning; tactical logistics management and supply chain management; financial aspects of logistics and supply chain management; forecasting and supply chain requirements; Supply Chain Network integration, production and operations management; procurement management and inventory management.
CBTL211/ 2BTL211	Research Methods	After completing the module, the student should be able to analyse and apply factors which influence research; research topic/project topic and stating the research problem; conceptualisation in qualitative research; writing literature review; population sampling methods; qualitative and quantitate research designs; data collection and data analysis; data interpretation; report writing as well as ethics in research.
SEMESTER 2		
CBLM202/ 2BLM202	Costing for Transportation	After completing the module, the student should be able to analyse and apply cost and management accounting; costs classification; systems for costing, products and services; variable and absorption costing; costing jobs; processes and services; activity-based costing; standard costing and budgetary control; profit planning in the short term as well as relevant costing and methods of estimating cost.
CBTL202/ 2BTL202	Logistics 2B	After completing the module, students should be able to design and establish storage and handling facilities; understand the principles of packaging and its role in the supply chain; select the appropriate handling equipment to be used in particular facilities; to give an outline of efficient operations in a warehouse; analyse the operational characteristics of the various modes of freight transport; analyse transport cost structures and apply transport pricing principles; outline the principles of transport management; understand how international supply chains are managed; understand and apply reverse logistics in supply chains as well as apply controls in logistics/supply chains.
CBTL212/ 2BTL212	Managerial Problem-Solving Techniques	After completing the module, students should be able to analyse business cases using modelling techniques with Microsoft Excel spreadsheet. Case problems will be solved with optimisation modelling; linear programming models; network models; simulation modelling; inventory models as well as queueing models.

CBTL222/ 2BTL222	Commercial Law	The module will equip students with sound knowledge and understanding of the legal rules in commercial transactions as well as principles of commercial law and ethics relating to commercial law. The students should also be able to analyse cases in the law of contracts; define and analyse valid contracts; types of contracts; nature of contracts; writing of contracts, accepting an offer; consensus and defect in contracts; capacity to perform a juristic act as well as breach of contracts and remedies. The students should be able to distinguish between the types of contracts, that is sale, lease and service. The mechanism to impose fairness on employment relationships will also be outlined.
---------------------	----------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

THIRD YEAR

SEMESTER 1		
CBTL301/ 2BTL301	Logistics 3A	Upon completing the module, students should be able to analyse and apply supply chain problems; formulate supply chain strategies as well as product and customer service strategies. Students will also evaluate order processing approaches and information systems in supply chains. Transport modes, multimodal transport and transport decisions will be analysed. Forecasting supply chain needs and inventory policy decisions will also be analysed and applied.
CBTL311/ 2BTL311	International Business	After completing the module, students should be able to analyse and apply merits of trading overseas; characteristics of international transport; freight rates; export cargo packaging, stowage, marking and dangerous goods cargo shipments; export customs practice freight/cargo insurance; as well as credit insurance and transport distribution analysis. The learner should be able to assemble export documentation for a particular transaction.
CBTL321/ 2BTL321	Risk Management	Upon completing this module, students should be able to identify and work with risk as well as analyse and apply trends affecting the supply chain; the supply chain management context; approaches to risk; responding to risks; a network view of risk; creating resilient supply chains and business continuity management.
CBLM301/ 2BLM301	Project Management	Upon completion of this module, students should understand project selection through strategic alignment; project management processes; project initiation definition and planning; project execution; monitoring and control; stakeholder management as well as project communication and project closure. Students will assess project risks and design plans to mitigate project risks.

SEMESTER 2		
CBTL302/ 2BTL302	Logistics 3B	After completing the module, students should be able to analyse and apply the following to logistics and supply chains: inventory policy decisions; purchasing and supply policies; storage and handling systems; facility location decisions and network planning. Students will also be able to apply logistics supply chain controls.
CBLM302/ 2BLM302	Production Planning and Control	This module seeks to help students to analyse and apply the following to production and operations management: business forecasting; the design of goods and services, process design, strategy and management; quality tools and techniques as well as capacity planning. The students will also evaluate operations management challenges in South Africa.
CBLM312/ 2BLM312	Practical Logistics A	During this period, students will acquire practical training or work integrated learning in a transport company or in an organisation dealing in logistics supply chain activities.
CBLM322/ 2BLM322	Practical Logistics B	During this period, students will acquire practical training or work integrated learning in a transport company or in an organisation dealing in logistics supply chain activities.

2BTM01/CBTM01 Diploma in Transport Management

This qualification is aimed at producing entry-level employees who intend to pursue careers in the field of transport and supply chain management. Successful students will be qualified to work in a transportation related business operation, specializing in road transport operations - national and international; and municipal transport/management. Serving as transportation projects manager; in-house transport manager for organisations; logistics service provider. Graduates will qualify to fill positions in warehousing and distribution, supply chain management, clearing and forwarding as well as export and import trade.

SEMESTER 2		
2ATL132/ CATL132	Business Language 2	After completing this module, students should be able to apply the concepts of persuasive communication within a number of different social contexts; develop business communication skills; avoid common mistakes made in a formal conversation and listen to his/her audience in order to provide a suitable response. Students should be able to understand audience in different contexts; carry out an audience analysis; develop the skill of delivering both good and bad news as well as carry out an effective presentation making use of both written and oral communication skills.
2BTL112/ CBTL112	Practical Accounting	After completing the module, students should be able to prepare books of prime entry; post journals; prepare and balance a general ledger; analysing effects of transactions on the accounting equation as well as prepare and adjust the

		trial balance. They should also be able to prepare the income statement with basic adjustments; prepare the balance sheet using the format of accounting equation; preparing statement of cash flows; calculation of input and output VAT as well as knowledge of principles of internal controls.
2BTL122/ CBTL122	Business Management	Upon completing this course, students should be able to apply sound management principles and theories in a real business situation; translate ideas into business opportunities; draw business plans and establish a business enterprise; analyse contemporary management issues which offer competitive advantage as well as analyse micro and macro business environment. They should also analyse the basic role of management in business organisations; analyse classical and contemporary approaches to business; gather and analyse financial information and take decisions on long term investment and capital budgeting as well as analyse case studies on financial decisions and select the optimal capital structure.
2BTL132/ CBTL132	Marketing	After completing the module, students should be able to analyse and apply the following to business situations: strategic marketing; market environmental factors; marketing research; marketing information systems; market segmentation; products; new product development and innovation; price and pricing strategy; product promotion; marketing distribution channels; competitors and competitive advantage; market targeting, positioning and brand strategy; management control; financial control as well as performance appraisal and benchmarking.

SECOND YEAR

SEMESTER 1		
2BTM201/ CBTM201	Transportation 2A	After completing the module, the student should be able to analyse and apply transportation on the supply chain and economy; different modes of transport: road, rail, air, water carriers and pipelines to freight movement as well as analyse intermodal freight transport and give the outlines of the South African Transportation Regulation and Public Policy.
2BTM211/ CBTM201	Transport field Specialisation	The objective of this module is for students to learn about running an efficient and effective road freight transport network. Students will analyse and apply theories in road transport organisation; managing and organising the human resources; transport operational control; cost control and budgeting; vehicle selection as well as vehicle maintenance.
2BTL201/ CBTL201	Logistics 2A	After completing the module, the student should be able to analyse and apply business logistics management; competitive advantage created by logistics; logistics and supply chain strategy planning; tactical logistics

		management and supply chain management; financial aspects of logistics and supply chain management; forecasting and supply chain requirements; Supply Chain Network integration, production and operations management; procurement management and inventory management.
2BTL211/ CBTL211	Research Methods	After completing the module, the student should be able to analyse and apply factors which influence research; research topic/project topic and stating the research problem; conceptualisation in qualitative research; writing literature review; population sampling methods; qualitative and quantitate research designs; data collection and data analysis; data interpretation; report writing as well as ethics in research.
SEMESTER 2		
2BTL201/ CBTL211	Transportation 2B	This module seeks to introduce students to the concepts of global transportation within the global market and to manage a transportation business through the applied knowledge of costing and pricing principles. The module also provides fundamental concepts to the different carrier and shipper strategies that would improve the transport operation process. Students will also be exposed to information sources and technology needed to manage transportation as a whole.
2BTL202/ CBTL202	Logistics 2B	After completing the module, students should be able to design and establish storage and handling facilities; understand the principles of packaging and its role in the supply chain; select the appropriate handling equipment to be used in particular facilities; to give an outline of efficient operations in a warehouse; analyse the operational characteristics of the various modes of freight transport; analyse transport cost structures and apply transport pricing principles; outline the principles of transport management; understand how international supply chains are managed; understand and apply reverse logistics in supply chains as well as apply controls in logistics/supply chains.
2BTL212/ CBTL212	Managerial Problem-Solving Techniques	After completing the module, students should be able to analyse business cases using modelling techniques with Microsoft Excel spreadsheet. Case problems will be solved with optimisation modelling; linear programming models; network models; simulation modelling; inventory models as well as queueing models.
2BTL222/ CBTL222		The module will equip students with sound knowledge and understanding of the legal rules in commercial transactions as well as principles of commercial law and ethics relating to commercial law. The students should also be able to analyse

	Commercial Law	cases in the law of contracts; define and analyse valid contracts; types of contracts; nature of contracts; writing of contracts, accepting an offer; consensus and defect in contracts; capacity to perform a juristic act as well as breach of contracts and remedies. The students should be able to distinguish between the types of contracts, that is sale, lease and service. The mechanism to impose fairness on employment relationships will also be outlined.
--	----------------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

THIRD YEAR

SEMESTER 1		
2BTL301/ CBTL301	Logistics 3A	Upon completing the module, students should be able to analyse and apply supply chain problems; formulate supply chain strategies as well as product and customer service strategies. Students will also evaluate order processing approaches and information systems in supply chains. Transport modes, multimodal transport and transport decisions will be analysed. Forecasting supply chain needs and inventory policy decisions will also be analysed and applied.
2BTL311/ CBTL311	International Business	After completing the module, students should be able to analyse and apply merits of trading overseas; characteristics of international transport; freight rates; export cargo packaging, stowage, marking and dangerous goods cargo shipments; export customs practice freight/cargo insurance; as well as credit insurance and transport distribution analysis. The learner should be able to assemble export documentation for a particular transaction.
2BTL321/ CBTL321	Risk Management	Upon completing this module, students should be able to identify and work with risk as well as analyse and apply trends affecting the supply chain; the supply chain management context; approaches to risk; responding to risks; a network view of risk; creating resilient supply chains and business continuity management.
2BLM301/ CBLM301	Project Management	Upon completion of this module, students should understand project selection through strategic alignment; project management processes; project initiation definition and planning; project execution; monitoring and control; stakeholder management as well as project communication and project closure. Students will assess project risks and design plans to mitigate project risks.

SEMESTER 2		
2BTL302/ CBTL302	Logistics 3B	After completing the module, students should be able to analyse and apply the following to logistics and supply chains: inventory policy decisions; purchasing and supply policies; storage and handling systems; facility location decisions and network planning. Students will also be able to apply logistics supply chain controls.
2BTM302/ CBTM302	Transportation 3B	This module is to provide students with clear parameters or goals for public transport, both informal and informal, and some of the challenges they face the in this industry. This is to also highlight some of the resistance to public transport usage. Finally, this will result in students knowing and understanding a number of steps, mainly of an organisational nature, which need to be taken in order to achieve the objectives of improved passenger transport in South Africa.
2BTM312/ CBTM312	Practical Transportation A	During this period, students will acquire practical training or work integrated learning in a transport company or in an organisation dealing in logistics supply chain activities.
2BTM322/ CBTM322	Practical Transportation B	During this period, students will acquire practical training or work integrated learning in a transport company or in an organisation dealing in logistics supply chain activities.

FACULTY OF SCIENCE, AGRICULTURE & ENGINEERING

BIOKINETICS & SPORT SCIENCE

ACADEMIC STAFF

Co-Ordinator	Dr C Gouws BA Human Movement Science (NWU), BA (Hons) Kinderkinetics (NWU), MSc. Kinderkinetics, PhD Sport Science, (UNIZULU)	Tel. no. (035) 9026968
Lecturers	Dr G Breukelman, BSc. (Hons) MSc, PhD Sport Science, (UNIZULU) Dr L Millard, BA (Hons) (Sport Science) MA (Human Movement Science) (NMU), PhD Sport Science, (UNIZULU) Ms P B M Ndlovu, BSC (Hons) Sport Science and Coaching (NUST), MSc. Sports Science-Physiology (Stell.)	

4NDP01/SNDP01 Diploma in Sport and Exercise Technology

This qualification is aimed at producing graduates who intend pursuing a career in the field of sport and exercise technology. Graduates who have achieved this qualification will be able to design, implement and manage a physical activity programme for all groups including special populations. They will screen, assess, monitor and manage health-related fitness, lifestyle and wellness programmes. Graduates will be able to provide personal training or lead and instruct safe and effective physical activity participation to meet participants' fitness requirements as well as provide educated advice on lifestyle change for improved well-being. In addition, graduates will have the knowledge for the appropriate referral to other healthcare providers. Employment opportunities include sport coach; sport organiser; health and fitness instructor; fitness adviser for sport teams; sport and fitness/gym manager; lifestyle consultant; school physical education and sport instructor.

MODULE DESCRIPTIONS

FIRST YEAR		
MODULE	MODULE NAME	MODULE DESCRIPTION
4HMD119/ SHMD119	Sport Didactics and Coaching	This module seeks to develop students' abilities to practically apply didactics and coaching principles in the training of diverse population groups in various sports and fitness training programmes. Students will acquire didactic competencies which they will engage to enable their clients to learn skills and strategies in the context of game play.
4HMD129/ SHMD129	Sport Management	This module is an introduction to the principles, concepts and theories of management in sport and leisure discipline. This module will prepare students for entry-level positions in the business of sport such as sport club management, sport consultancy, sport marketing and governing body administrations.
4HMD139/ SHMD139	Sport & Exercise Technology	This module will give students an understanding of fitness, basic concepts behind fitness programmes and the practical application of the basic principles in constructing a basic training programme for diverse population groups.
4HMD149/ SHMD149	Sport & Physical Recreation Studies 1	This module will enable the students to gain knowledge of the human body as well as how the body works and interacts with different parts of the body. Included in this module is the study of bones, joints and related structures, movement capabilities, muscle tissue as well as muscular system. Students will also gain knowledge of concepts of leisure, recreation play and work. In addition, students will learn the guidelines to writing a sponsorship letter; risk assessment; emergency procedure; safety equipment and management of sport injuries as well as service learning.

SECOND YEAR		
4HMD219/ SHMD219	Human Movement Science	This course will focus on the neural control of movements as well as an understanding of how movements are planned, coordinated and executed.
4HMD229/ SHMD229	Exercise Physiology II	This module is an extension of the anatomy module in the first year. In this module, students will study the functions of the body in detail with special reference to the interdependence of the different body systems.
4HMD239/ SHMD239	Kinesiology	This module is an introduction to the internal and external forces that affect human performance and the effect those forces have on performance through the branch of physics such as mechanics.
4HMD249/ SHMD249	Sport & Exercise Technology II	This module entails the study of the code of ethics, validity and reliability of sport. Components of fitness including body composition; agility; balance; co-ordination; power; reaction time; speed as well as flexibility are discussed. Also included are topics of injuries, gym training, and periodization and sport specific training programs.
THIRD YEAR		
SHMD319/ 4HMD319	Sport Psychology	This module provides an overview of the theoretical and applied aspects of the psychology of sport. It focusses specifically on topics related to psychological variables influencing participation in sport, competitive nature of sport environments as well as psychological strategies used to enhance sport performance.
SHMD329/ 4HMD329	Health Science	This module will focus on health as well as how to improve health by preventing and managing diseases.
SHMD339/ 4HMD339	Exercise Physiology III	This module builds on the knowledge that you have gained in Exercise Physiology II. This module will focus be on physiological adaptations and responses to exercise as it release to human performance, training and limitations.
		This module covers the study of medical history and patient details. Also included will be lung function, heart rate and blood

SHMD349/ 4HMD39	Sport and Exercise Technology III	pressure testing. Healthy lifestyle choices regarding diet and physical activity as well as stress, sleep, alcohol and smoking. SISA protocols. Aerobic and Anaerobic testing. Components of fitness.

4DIP02/SDIP02 Diploma in Hospitality Management

This programme offers training to students who are keen to enter the hospitality industry and seek employment in a variety of lodging and guest service occupations as owners or managers. Graduates of the Diploma Hospitality Management will be equipped with supervisory and managerial skills in areas such as hotels and restaurants, accommodation management, food and beverage management, front office, banqueting or as entrepreneurs where they will be responsible for quality control, effective use of equipment, hygiene and safety, stock control, compilation and adhering to budget procedures, problem identification and resolution as well as liaising with different divisions of an organization and industry.

Teaching of a high standard is offered and students have the use of sophisticated and well-equipped kitchens and a dining area. Students will do six months Work Integrated Learning in their third year to prepare them for their career in the hospitality industry.

Diploma in Hospitality Management

MODULE DESCRIPTIONS

CODE	MODULE NAME	MODULE DESCRIPTION
4HHC111/ SHHC111	Hospitality Communication	Hospitality Communication is an interactive course designed to help students learn the fundamentals of working in the hospitality industry by improving their communication, self-esteem and presentation skills. The module focuses on intercultural communication, applicable to South Africa, conflict management strategies and forms of business correspondence. Application of workplace scenarios are dealt with throughout the module.
4HMI111/ SHMI111	Hospitality Information Systems 1	The aim of this module is to skill students in computer literacy within Windows operating system, browser and word processor applications.
4HMP111/ SHMP111	Hospitality Operations I	The aim of this module is to introduce students to the scope of the hospitality industry as well as the organisation and structures of hospitality establishments. The module will also provide an overview of aspects of rooms division

		management, food service, lodging and hospitality careers.
4HMG111/ SHMG111	Hotel Health and Safety	Hotel Health and Safety gives students a broad look at the different aspects of health and hygiene in the hospitality industry. The module aims to equip students with theoretical and practical knowledge of hazards, micro-organisms, fire safety and basic first aid as required in the hospitality industry.
4HMB111/ SHMB111	Food and Beverage Studies 1	The important link between food and beverage service in the hospitality industry cannot be denied. This module provides students with technical skills of set-up and serving as well as theoretical knowledge of the necessary attributes of staff, tea and coffee service and sectors of the hospitality industry.
4HMC111/ SHMC111	Culinary Studies 1	This course covers culinary theory, practices and principles. Learners are introduced to tools and equipment and mise-en-place in the kitchen. It focusses on theory, practices and principles of knife skills, dry heat cooking methods, microwave cooking and the use of flavours and flavourings in food fabrication. Hands-on kitchen laboratory experiences introduce the students to basic baking, stocks & soups, eggs, dairy and poultry preparation. Introduction to breakfast cookery is also included.
4HMI112/ SHMI112	Hospitality Information Systems 2	The aim of the module is to equip students with basic computer literacy skills in presentation and spreadsheet applications.
4HMG112/ SHMG112	Nutrition	The module provides the students with a foundation of nutritional principles applied in the food and beverage service operations. The content of the module focuses on the menu choices for various ethnic groups and religions. It also places an emphasis on diet and diseases as well as implementation of good nutritional principles during food preparation.
4HMM112/ SHMM112	Hospitality Management 1	This module introduces the student to the core concepts, principles, theories and practices of effective management essential to the successful operation of an enterprise in the hospitality industry.
4HMC112/ SHMC112	Culinary Studies 2	This course builds on the theory and practices learned in Culinary Studies 1. Hands-on kitchen laboratory experiences introduce the student to

		moist heat cooking methods, knife skills, classical cookery methods in sauces, salads, sandwiches, quick breads, vegetables and starch preparation. Emphasis is placed on plate presentation.
4HMG122/ SHMG122	Service Excellence	The aim of this module is to enlighten students on the importance of service excellence as well as a practical application of how to provide excellent service in all hospitality related environments as service excellence leads to customer satisfaction and loyalty, ultimately promoting the success of the business.
4HMF112/ SHMF112	Hospitality Financial Management 1	After completing this module, students should be able to articulate the nature of financial management and its importance in the hospitality industry context. They will use the trial balance and prepare a basic income statement and balance sheet in the prescribed format evidencing correct classification of transactions and balances and incorporating accurate calculations. Basic vertical, horizontal and ratio financial analysis of the income statement and balance sheet and the interpretation of the outcome of each analysis will also be performed. A three-month cash budget and the articulation of the importance of working capital management in the hospitality industry will be performed and emphasised.
4HMP212/ SHMP212	Hospitality Operations II: Front Office	Front office is often the initial point of physical contact between the customer and the hospitality unit. As a Hospitality professional, students will be required to display knowledge and skills essential to the efficient functioning of this department.
4HMG211/ SHMG211	Hospitality Behavioural Studies	This module will introduce students to the field of consumer behaviour with specific reference to the hospitality industry. This module aims to enlighten students on decision-making processes of consumers and factors that may influence these decisions.
4HMM211/ SHMM211	Hospitality Management II	This module presents a systematic approach to human resource management in the hospitality industry, focusing on the staffing and function of management. This module is designed to provide students with an understanding of the importance of human resource management in the hospitality industry.
4HML211/	Hospitality Law 1	The purpose of the module is to present the history of South African Law and laws which are

SHML211		commonly used in hotel, restaurant, transport and travel services as well as the regulatory instruments that support effective management of the hospitality industry. The module focusses mainly on the law of contract, law of delict and commercial contract. It also develops the students' understanding of key aspects of these laws including how sales contracts are formulated, rights of the parties and liabilities.
4HMC211/ SHMC221	Culinary Studies 3	The module builds on the theoretical and practical knowledge gained in the first year. Plate presentation, service styles, menu planning and evaluation is emphasised. Additional culinary skills and techniques such as yeast and gelatine work, meat, poultry, fish and shellfish are incorporated whilst building on the importance of teamwork, organisation and time management. The module aims to expose students to new cooking methods and ingredients to broaden their culinary horizons.
4HGH111/ SHGH111	German for Hospitality 1	The aim of this module is to learn basic communicational skills (listening, speaking, reading and writing) in everyday German. On completion of this module learners should be able to use everyday conversational and communicative phrases, such as: general conversations about learners themselves and other people (e.g. greeting people, introducing yourself, saying where you come from and where you live), conversations in a restaurant/café/hotel, booking a room, using numbers etc.
4HMC222/ SHMC222	Culinary Studies 4	This Culinary Studies module focus on kitchen management and utilises the knowledge and practical experience gained in the previous culinary studies modules to challenge students to make use of what they have learned to put together their own balanced and theme-oriented menus for events. The students are then required to manage every aspect of the kitchen for an event including; ordering, preparation and service.
4HMB212/ SHMB212	Food and Beverage Studies 2	The module is delivered in both theory and practical whereby students interact with the customers on a regular basis. Students are equipped with skills on serving meals and beverages (alcoholic and non-alcoholic). Learners will learn to apply different serving and clearing

		techniques. It also gives student a basic knowledge of international wines, law and wine tasting.
4HGH112/ SHGH112	German for Hospitality 2	The aim of this module is for learners to build on the knowledge and language skills that they have acquired during the first semester. This will include conversations in a restaurant/ café/ hotel, asking for and giving directions, buying things in shops, etc. Learners will need to know simple grammatical structures and vocabulary that will enable them to construct their own dialogues and interact in a simple way provided the person talks slowly and clearly.
4HHM212/ SHHM212	Events Management	This module is designed to introduce students to the planning and management of special events. This highly interdisciplinary course addresses the systems, tools and checklists necessary for successful event planning. Students learn the principles of marketing as applied in the events management industry.
SHML311	Hospitality Law 2	The module introduces the basic framework of consumer, liquor, food as well as labour legislations and how such laws are enforced. Laws which are applied when opening a hospitality business is emphasised. The module also provides focus on how the law protects the consumer/employee in everyday transactions.
SHMF311	Hospitality Financial Management 2	Hospitality Financial Management 2 revises the performance of basic financial statement analysis with a view to understanding business performance and position. Strategies for business growth and the associated costs thereof, as well as working capital management techniques are covered. Net Present Value and payback period investment analysis methods are used to evaluate investment opportunities and students are taught to compile a business plan which includes a financial budget.
SHMM311	Hospitality Management 3	The module entrepreneurship focuses on the practical and personal development aspects of starting a new venture. The module presents the concept of entrepreneurship opportunities; discoveries; value creation; customer and market orientation and development; basic feasibility analysis; preparing the marketing and sales; business modeling as well as business planning and analysis. As part of this module, students are

		expected to organise a seminar on entrepreneurship with the aim of attracting local entrepreneurs and business owners who assist in assessing the quality of the business idea and plan.
SHMP311	Hospitality Operations 3	This module studies the impact of facility design on facility management. Facility systems include safety & security systems; water and wastewater systems; HVAC systems; lighting systems; laundry system as well as food service equipment.
SHMI311	Hospitality Information Systems 3	This module introduces the computer systems in the hospitality industry and the practical application of these systems.
SHMG312	Work Integrated Learning	This module builds on the knowledge and skills gained during the programme. It integrates theory and practice in learning. Students work in a fully operational hospitality organisation for a period of six (6) months.

Department of Engineering

The Bachelor of Engineering in Electrical Engineering and the Bachelor of Engineering in Mechanical Engineering are undergraduate degrees which will increase the number of people with high level skills in our society. This will assist in expanding the South African economy and will create employment opportunities. The two qualifications will provide opportunities for students with a suitable mathematics background to move towards acquiring an internationally accredited degree from UNIZULU as a member of the Washington Accord professional qualifications. This will enable those who achieve these qualifications to benefit from opportunities that arise within South Africa, throughout the rest of Africa and worldwide.

- BEng. (Electrical Engineering) (5EEDG1)
- BEng. (Mechanical Engineering) (5MEDG1)

The curriculum for the common first year for the BEng Electrical Engineering degree and the BEng Mechanical Engineering is shown in the table below:

Module Code	Module name	NQF Level	Credit Value	Prerequisite Subject(s)
Year 1 Semester 1				
4MTH171	Calculus I for Engineers	5	16	
4PHY171	General Physics A for Engineers	5	16	
4MTH181	Engineering Mechanics	5	16	

4CPS171	Introductory Computing for Engineers	5	16	
5MEC111	Engineering Drawing	5	8	
Total			72

5EEE211	Signals and Systems I	6	16	5EEE112
5MEC211	Mechanics of Solids I	6	12	4MTH172, 4MTH182
5MEC221	Materials Science in Engineering	6	12	4MTH172, 4MTH182
Module Code	Module Name	NQF Level	Credit Value	Prerequisite Subject(s)
Year 2 Semester 2				
4MTH272	Linear Algebra and Differential Equations for Engineers	6	16	4MTH172
5MEC212	Thermofluids I	6	12	4MTH172, 4MTH182
5MEC222	Dynamics I	6	16	4MTH172, 4MTH182

5MEC232	Mechanical Engineering Machine Element Design I	6	12	5MEC112, 5MEC122
5EEE212	Introduction to Power Engineering	6	16	5EEE112
Module Code	Module Name	NQF Level	Credit Value	Prerequisite Subject(s)
Year 3 Semester 1				
5MEC311	Mechanics of solids II	7	12	5MEC211
5MEC321	Thermofluids II	7	20	5MEC212
5MEC331	Mechanical Engineering Machine Element Design II	7	8	5MEC232
4STT171	Statistics for Engineers	5	12	
5MEC341	Experimental Methods	7	12	ALL SECOND YEAR MODULES
5MEC351	Materials under Stress	7	8	5MEC221
Module Code	Module Name	NQF Level	Credit Value	Prerequisite Subject(s)
Year 3 Semester 2				
5MEC312	Mechanical Engineering Machine Element Des III	7	12	5MEC331
5MEC322	Dynamics II	7	16	5MEC222
5MEC332	Thermofluids III	7	12	5MEC321
5MEC242	Project Management	6	8	ALL SECOND YEAR MODULES
5MEC342	Professional Communication Studies	7	8	ALL SEOND YEAR MODULES
1ANT172	Culture and Society in Africa	5	16	
Module Code	Module Name	NQF Level	Credit Value	Prerequisite Subject(s)
Year 4 Semester 1				
5MEC411	Mechanical Vibrations	8	12	5MEC322
5MEC421	Product Design	8	12	5MEC312
5MEC431	Finite Element Analysis	8	12	5MEC311
5MEC461	Industrial Ecology	8	12	ALL THIRD YEAR MODULES
5MEC441	Fundamentals of Control Systems	8	12	ALL THIRD YEAR MODULES
5MEC471	Engineering Professionalism	8	12	

Module Code	Module Name	NQF Level	Credit Value	
	Year 4 Semester 2			
5MEC412	System Design	8	12	5MEC421
5MEC432	Final Year Research Project	8	40	
5MEC422	New Venture Planning and Management	8	12	ALL THIRD YEAR MODULES
2LMA472	Maritime Law for Engineers	8	8	ALL THIRD YEAR MODULES
	TOTAL CREDITS FOR THE DEGREE		576
